

# Burak Arat

## Senior .Net Developer

Following my successful tenure in Malta spanning one and a half years, I am now seeking to advance my career. While I will require visa sponsorship, the process will be streamlined due to my possession of a Schengen visa. My professional background encompasses ERP and E-Commerce projects where I demonstrated proficiency in developing back-end Web APIs and designing databases. Additionally, I possess valuable front-end development expertise.

### EDUCATION

#### M.S in Software Engineering

Hacettepe University

Ankara / TURKEY, 2016 - 2018

#### B.S in Computer Science

Gazi University

Ankara / TURKEY, 2010 - 2014

### SKILLS

#### Back-end coding

C#, .Net Core, ASP.NET MVC, WPF, Entity Framework, REST/SOAP Web API Services, RabbitMQ, Elasticsearch, Azure Service Bus, Jira, Azure DevOps, Bamboo, Octopus, Xunit, Moq, Powershell, SignalR, TFS, Git

#### Database & Caching

T-SQL, MSSQL Server, MySQL, MongoDB, Redis

#### Front-end coding

JavaScript, AngularJS, Blazor, HTML, CSS, Bootstrap

### LANGUAGES

Turkish - Native

English - Professional

## Work Experience

### SENIOR BACKEND .NET DEVELOPER

APCOA PARKING Sverige AB, MALTA | 2022 – Present

- Successfully executed the implementation of APIs using Microservice Architecture, effectively transitioning from a Monolithic Web Application.
- Demonstrated exceptional leadership skills by mentoring junior developers in the principles of clean coding, resulting in improved overall development practices.
- Took charge of implementing and maintaining CI/CD pipelines for web applications, ensuring the seamless deployment and continuous integration of software updates.
- Proficiently applied an extensive range of technologies and tools, admitting C#, .Net6, ASP.NET MVC, Entity Framework, REST Web API Services, RabbitMQ, Jira, Azure DevOps, Bamboo, Octopus, Xunit, Moq, TFS, Git, T-SQL, MySQL, and Redis.

### BACKEND .NET DEVELOPER

Arvato Supply Chain Solutions, Istanbul / TURKEY | 2021 – 2022

- Spearheaded the development of a Distributed Management System utilizing Microservice Architecture
- Successfully integrated carrier companies to enable real-time tracking of package statuses
- Proficiently utilized the following tech stack: C#, .Net3.1, ASP.NET, MVC, Entity Framework, Elasticsearch, REST/SOAP Web API Services, Jira, Azure DevOps, Azure Service Bus, Xunit, Moq, SignalR, Powershell, TFS, Git, T-SQL, MSSQL Server, MongoDB, JavaScript, HTML, CSS, Blazor, and Bootstrap

### BACKEND .NET DEVELOPER

Porte, Istanbul / TURKEY | 2019 – 2021

- Successfully developed and integrated Gamercard project's mobile and admin panel Web API services
- Effectively incorporated Turkcell Paycell payment system into the project and utilized JWT authentication
- Skillfully implemented a basic Chatbot for amerikadaniste.com customer support using Python
- Proficiently utilized a tech stack including C#, .Net3.1, ASP.NET, MVC, Entity Framework, REST/SOAP Web API Services, Jira, Azure DevOps, Azure Service Bus, Xunit, Moq, Powershell, TFS, Git, T-SQL, and MSSQL Server

### FULLSTACK .NET DEVELOPER

Netoloji, Istanbul / TURKEY | 2017 – 2018

- Developed an advanced Document Management System from inception to completion, incorporating features similar to Google Drive.
- Utilized object-oriented methodologies, including SOLID principles and repository design pattern, to implement a multi-layered architecture.
- Proficiently utilized the following tech stack: C#, .Net3.1, ASP.NET, MVC, Entity Framework, REST/SOAP Web API Services, Jira, Xunit, Moq, Powershell, TFS, Git, T-SQL, MSSQL Server, JavaScript, HTML, and CSS.
